

SAP S/4HANA Transition Services

YOUR LOCAL SAP S/4HANA CONSULTING PARTNER

73%
of executives said
the complexity
of data is their
largest IT
challenge.¹

The world is becoming more complex.

Customer expectations, technology trends and data integration are all changing quickly. How can your SAP system keep up? The answer lies in S/4HANA.

Solvera can help your business simplify decision making by leveraging S/4HANA to evolve your SAP platform from a transactional system that merely records data to an improved tool that gives end users active decision support in real time based on data from both internal and external sources.

Some specific benefits of engaging Solvera in your S/4HANA transition journey include:

1. Hands-On Experience

Solvera consultants have worked on a variety of SAP HANA projects, including one of the first migrations in Canada. The client reduced their database size from 1.6TB to 220GB, and reduced reporting time from 27 minutes to 2 seconds!²

2. Local Talent

We call Western Canada home, and our SAP consultants have spent over a decade working with the majority of local SAP clients.

3. Value

Solvera has a track record of delivering benefit to our clients, who agree that Solvera's people deliver tremendous value to their organizations.

Solvera can help you stay ahead of change.

85% of enterprise decision makers feel they have a timeframe of two years to make significant inroads on their digital transformation before suffering financially and/or falling behind their competitors.³ A discussion with Solvera today can start you down the path towards tomorrow's success.
