

SAP S/4HANA® Assessment & Advisory

With over 20 years of delivering SAP® services, Solvera has become heavily invested in our SAP® service area. As an SAP® PartnerEdge® Sell and Service partner, we have access to leading information that ensures our team of over 50 deeply experienced SAP® professionals stay current on leading SAP® technologies and best practices and up to date on their certifications, including SAP S/4HANA®.

Solvera’s full suite of SAP® services is illustrated below, showing our successful track record in delivering SAP S/4HANA® Assessments, SAP® consulting and SAP® application management services. Through years of service and building strong relationships, we have earned the trust of numerous clients in a wide range of industries.

What is SAP S/4HANA®?

SAP S/4HANA® is SAP®’s leading intelligent ERP system that runs on the SAP HANA® in-memory database. SAP S/4HANA® will integrate and manage your business functions – such as finance, human resources, procurement, sales, manufacturing and service – in real time. You will have the flexibility to choose from Hybrid, Cloud and On-Premise scenarios, and gain access to exciting new innovations.

Thousands of organizations have made the move to SAP S/4HANA®, and have reported significant benefits:

- 30% Shorter Delivery lead time
- 60% increase in operational efficiency
- 95% faster material requirements planning
- 48% reduction in days sales outstanding
- 80% faster report generation
- 100% visibility of inventory across all locations
- 85% faster system upgrades
- SAP S/4HANA® system support until 2040

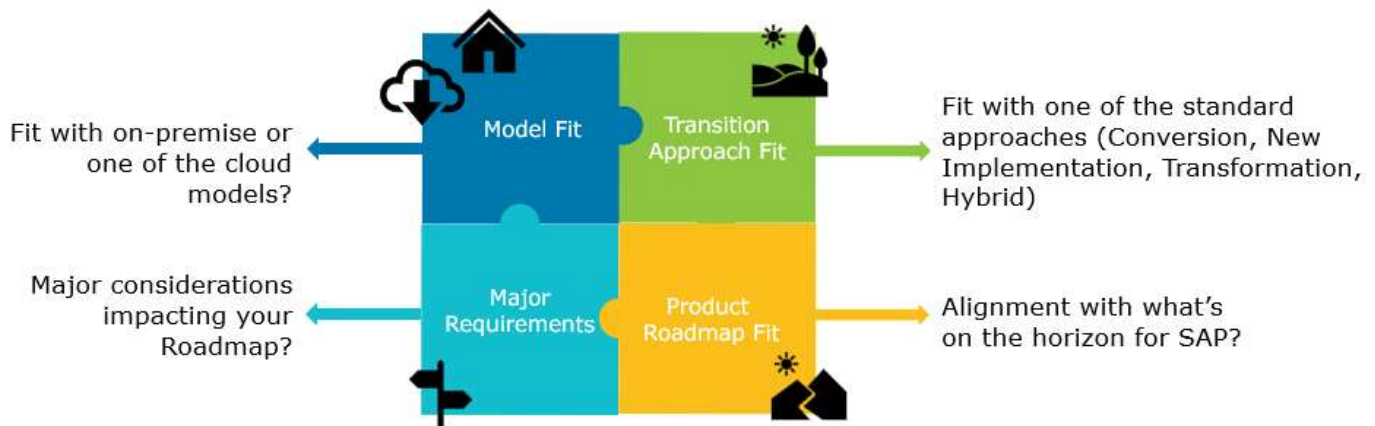

Access new innovations with SAP S/4HANA®!

- Platform for digital transformation
- Embedded real-time analytics and enabled mobile analytics
- Fiori user experience
- Faster response times
- Better Performance
- Universal Ledger
- Table Simplification
- Embedded BPC
- Machine learning applications
- Fit to standard accelerators
- Rapid data integration from multiple sources
- Grow development on a cloud platform

What is an SAP S/4HANA® Assessment?

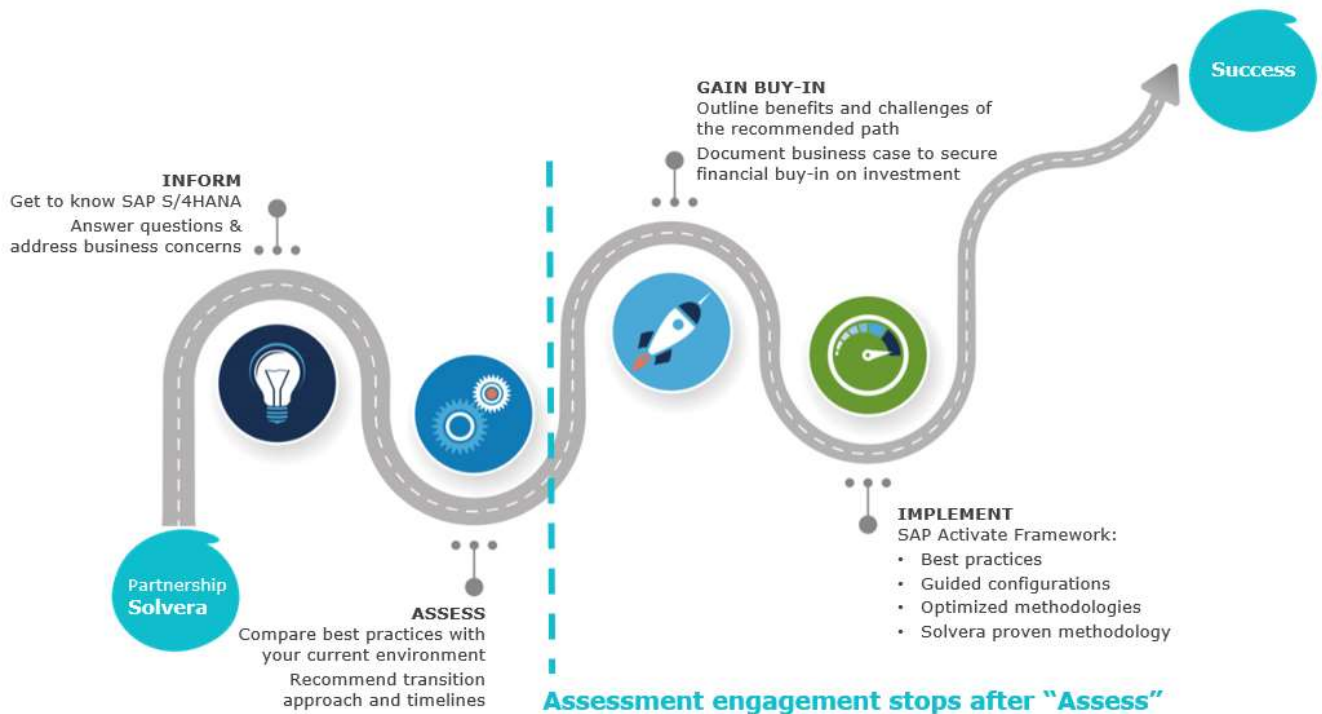

Solvera’s SAP S/4HANA® Assessment provides a framework for your SAP S/4HANA® journey. Solvera will work with you to look at key influencing factors to be considered in your transition to SAP S/4HANA®. We will perform an assessment of your SAP® environment determine the best migration path to SAP S/4HANA®.

Your Road to SAP S/4HANA®

A team from Solvera will make recommendations on best fit for Model, Approach, Major Requirements and Product Roadmap for your organization, as illustrated below.

With a thorough understanding of your environment, sizing of effort and cost, and documented business processes, we will provide a high-level roadmap and recommendation to help you make an informed business decision going forward. Solvera will lead you through a journey of transformational change, and the road looks like this:

SAP S/4HANA® Assessment Approach

Solvera has an established Assessment Plan which considers activities and deliverables in each stage of the assessment, from the Assessment Kickoff through to Final Recommendations:

	Assessment Kickoff	SAP Analysis Tools	Technical & Functional Deep Dive	Facilitated Discovery Workshops	Recommendations
Activity	½ hour session to orient key stakeholders to the project and plan	Solvera will run SAP analysis tools and interpret their results	Customer-led "Look under the hood" of existing environment Populating log files	Guided workshops with pre-defined stakeholders to gather key high-level requirements Input to assessment analysis recommendation	Presentation and Final Report of Recommendations
Deliverables	<ul style="list-style-type: none"> Kickoff presentation RACI for Assessment Project 	<ul style="list-style-type: none"> Transformation Navigator Readiness Check SAP Solution Manager BW Analysis reports 	<ul style="list-style-type: none"> Technical assessment basis / ABAP / Security Functional Assessment Guide / Log 	<ul style="list-style-type: none"> Functional assessment log completion Development effort analysis report Security and Infrastructure log completion 	<ul style="list-style-type: none"> Estimate / Implementation Recommendation Final Presentation Deck

SAP S/4HANA® Implementation Options

- **Option 1: System Conversion** – On premise system migration from SAP® ECC to SAP S/4HANA®.
- **Option 2: New Implementation** – A move to an SAP® Cloud Solution will require a system re-implementation, enabling complete re-engineering and process simplification.
- **Option 3: Hybrid** – An approach including an on-premise migration to SAP S/4HANA®, while enabling other SAP® cloud solutions. Provides the opportunity to utilize SAP® Cloud Platform and Cloud Integration.
